

FAMINE

Excerpts from **Ezekiel 14:12-23**: “` Son of man, when a land sins against Me to commit a trespass, and I shall stretch out My hand against it, and cut off its supply of bread and send scarcity of food on it, and cut off man and beast from it, even though these three men, Noah, Daniel and Job, were in it, they would deliver only themselves by their righteousness’, declares the Master Yahuweh. `...even though Noah, Daniel and Job were in it, as I live’, declares the Master Yahuweh, `they would deliver neither son nor daughter. They would deliver their own lives by their righteousness’. For thus said the Master Yahuweh, `How much more it shall be when I send My four evil judgments on Jerusalem-- the sword, scarcity of food, evil beasts and pestilence--to cut off man and beast from it. But, see, there shall be left a remnant who are brought out, both sons and daughters...’ ”

Revelation 6:5-6, 8: “And when He opened the third seal, I heard the third living creature say, `Come and see’. And I looked and saw a black horse, and he who sat on it holding a pair of scales in his hand. And I heard a voice in the midst of the four living creatures saying `A quart of wheat for a day’s wages, and three quarts of barley for a day’s wage. And do not harm the oil and the wine’...And I looked and saw a greenish pale horse. And he who sat on it had the name Death, and the grave followed with him. And authority was given to them (*all four horses*) over a fourth of the earth to kill with sword, and with hunger, and with death, and by the beasts of the earth.” (Italics mine)

A United Nations spokesman is quoted as saying: “Food is a weapon. We use it to control people. We decide who lives and who dies”. (Quoted by Steve Quayle 1/14/08 on The Q Files, short wave radio). But, food has always been used to control people. Cutting off a nation’s food supply is a major method in warfare. It has been used before, and it will be used again.

But, we must remember that Yahuweh has always used man to perform His judgments—man who has submitted himself to Lucifer/Satan. In the three articles, “Yahuweh’s Pattern of Judgment” (a 10-pattern) and “Scriptural Reasons Why Yahuweh Must Judge Mankind”, and “Judgment on America, Why?” I show the three reasons why He judges, and show that His patterns are consistent. In the article “Eugenics: Planned End of Mankind”, I show the history of the plans to eliminate 95%-100% of mankind, as we know it in the image and likeness of Yahuweh.

The four mentioned in Ezekiel: 1) war 2) famine 3) savage beasts 4) pestilence (disease) are the four main ways that the world’s elite under Lucifer want to eliminate 95-100% of the earth’s population. Right now, all these methods are being executed, mainly in Africa and Asia—over 1/4th of the earth. Wars are being started to kill off third world people. Famine is planned and executed in a variety

of ways. One is by using scalar technology—weather warfare—and creating drought and floods to kill food crops. Another is by genetically altering seeds so that they only grow one crop. The poor of the world can't afford to pay for new seeds each growing season.

Another way is to create diseases in animals—like birds and cattle—in order to have an excuse to kill off the world's chickens, turkeys and ducks, and to kill cattle, which they are doing in places like China and England and now beginning in the U.S.

Projects like the Pentagon's DARPA (The Defense Advanced Research Project Agency), and other projects carried on in our underground cities, are creating super-animals as well as super humans. These vicious animals will have one purpose—to kill. From microscopic germ warfare—chemical and biological warfare—to mosquitoes carrying disease, to mutated dogs, and other beast, “beasts” will be used to kill mankind.

By destroying a nation's economy, and food prices going too high for the average person to buy it, or shortages of availability of food, all contribute to famine. Famine also creates panic, and foreign troops on our soil are prepared to “police” those who cause trouble. May 2007, President Bush signed the “Defense Authorization Act”, formally announcing that America was preparing for insurrection. The National Guard is being trained, not just to police the people, but for an outbreak of cannibalism. (From Alex Jones' DVD “End Game”.) Severe famine caused cannibalism in Jerusalem when Nebuchadnezzar besieged it for years—cutting off the food supply.

And, then there are the diseases created in American and England's laboratories that are being introduced into large population centers in Asia, and Africa, and now into England and the U.S., to give excuse to give vaccines that are more deadly than the diseases. These diseases are meant to kill great portions of mankind.

The “think tanks”, like the Club of Rome, are a bunch of PhDs thinking about ways of killing off the world's population. These four ways listed by Ezekiel are the primary ways they are working on. Interesting that Yahuweh says they are His ways of judgment. So, Ezekiel 14:12-23 is not just talking about Jerusalem in the past, but the world at present.

I asked Father why these three men were listed and none others. He immediately gave me the answer: 1) Daniel was saved from the wrath of man, 2) Job was saved from the wrath of Satan 3) Noah was saved from the wrath of Yahuweh!

In **Genesis 41:15-32**, we read about a double-dream that Pharaoh of Egypt had, which Joseph interpreted. He saw seven years of plenty and seven years of great famine. The famine was caused because the “forward east wind” (Hebrew: “kadim”—as in Kadima, the ruling party of Israel, which means “forward” in modern Hebrew) came and dried up the crops.

Joseph says, verses 27, 29-31: “And the seven lean and ugly cows which came

up after them are seen years and the seven empty heads of corn scorched by the east wind (“kadim”) are seven years of scarcity of food...See, seven years of great plenty are coming in all the land of Egypt, but after them seven years of scarcity of food shall arise and all the plenty be forgotten in the land of Egypt. And the scarcity of food will destroy the land, and the plenty shall not be remembered in the land because of the scarcity of food following, for it is very severe”.

They had seven years of great plenty, just as we did from Yom Teruah September 13, 1993 to Yom Teruah September 29, 2000. Then we had seven good years of transition from Yom Teruah September 29, 2000 to September 13, 2007. Now we have entered the last seven years before Messiah comes, which will see the rise of anti-messiah and the great world destruction that much of the Bible talks about. Right now, “Kadima” is the ruling party of Israel. The east wind is blowing over the earth, and famine is in that wind, for all the earth.

Right now our unemployment rate is staggering. More and more companies are laying off their employees, and many companies are going bankrupt. Of course, no income, no ability to pay increasingly large debts or buy much food.

Right now, as in the seal judgments of Revelation 6, the black horse is bringing famine. In the United States right now, the wheat crop, the corn, the rice, the soy beans, dairy products, eggs, vegetables and fruit are going higher and higher in price—and there will not be a slow-down in the rising prices, nor with the failing of the availability of these things. In fact, right now, the wheat production of the U.S., and the grain availability is the lowest we’ve had since 1947. As truth-teller Steve Quayle has said on his short wave broadcast: “We are just one crop away from famine”. When it says that a quart of wheat will cost a day’s wages, it is going that direction now. Barley is also in danger, as the text shows. Rice is also rising in price.

“Wine and oil”: Both the grape and the olive tree are not pollinated by bees. The bees are vanishing--please read the articles: “Vanishing Bees and the Tip of the Iceberg”, and “Vanishing Bees Part II: Insider Information”. Scalar technology can create famine, as well as confuse bees and animal life. Scalar can create floods, high winds, tsunamis, hurricanes, dry lightning, earthquakes, volcano eruptions, and other disasters that cause food crops to be destroyed.

In the 1930s President Franklin D. Roosevelt supported and funded Stalin in his “experiment”, which was successful: To kill seven million Ukrainian Christians by famine. Do you see that number? -- Seven million!

While “Ethenol” sounds like a great idea on the surface, it is taking a majority of our corn crop and other grain crops that should be grown for us to make the fuel. It is also taking land that used to be used to grow tomatoes and peppers and other things that contain Vitamin C and other nutrients that we need. So, it is part of the planned famine deal. I remember years ago, something that caused me anger then, and causes me anger now—we dumped tons of wheat into the ocean so that the prices could be kept high. We have dumped tons of food, plowed it under,

etc., and paid farmers not to produce grain crops—so that the prices would be kept high, and the government could control the food supply.

Also, the nutritional value of our food is decreasing constantly, so that we are getting fatter, by useless calories, and physically weaker at the same time.

Here is something to watch also: I've been following this story on NBC News and through Steve Quayle's Reality Radio Network: The truckers, especially the independent ones, are having much trouble as diesel fuel is close to \$4.00 a gallon. Many truckers are quitting their jobs, so there is a truck driver shortage. According to NBC Night News, March 2008, many trucking companies are hiring and training couples, and single women to drive the trucks. They showed one little Asian lady driving a big 18-wheeler semi. As you know, most of our food supply is delivered to our stores by trucks.

Now for another alarming situation to watch: They are working to fix up train yards and train stations, clearing tracks, etc., and the train is coming back as a means of transporting food and goods. Why is this alarming? Because of the set up of the concentration camps and/or F.E.M.A. camps to transport people to them by train, just like Poland 1930s and 40s--to their death at these camps—all complete with guillotines, gas chambers and ovens—just like Hitler's Germany and Poland.

Hunters in remote areas, and Indians on reservations, as well as others, are reporting seeing huge 3-story boxcars sitting on rail tracks, hidden by underbrush. These boxcars are complete with shackles and guillotines.

Quoting from Pam Schiffert, who has written extensive warnings about martial law and Satanism in America: "Many people have raised skeptical questions about reports of prisoner boxcars and shackles being sighted across America...I had eye witness information on these boxcars...Missionaries traveling across America to evangelize and pray, stumbled across these boxcars in Montana near Columbia Falls in Glacier. They described boxcars, in this case painted black, with shackles welded into them and a modern guillotine at the head of each boxcar. I later received a report from Lee Harrington of Valier, Montana, who was a professional metal worker. He told me how in Glasgow, Montana, summer youth workers were employed to weld shackles into boxcars. Passing through the Blackfoot Indian Reservation in Cutbank, a local Blackfoot Indian, George Bullcalf, spotted these strange boxcars, some with open doors and shackles plainly visible...I then traveled to Portland Oregon, and lectured in the home of an actual employee of Gunderson Steel...Gunderson was under secret contract from the U.S. Government to produce these prisoner boxcars...Gunderson had a satellite factory for a boxcar with shackles operation in Texas. I called Col Jim Ammerman in Texas, famous military Patriot, and told him about this. He replied: 'A friend of mine who is a metal welder called me recently, and said he had gone to apply for in Texas for welding. When he was told that it involved welding shackles into boxcars, he declined the job!' "

(If you want Pam's entire article, let me know). I met with Col. Jim Ammerman a couple of times, and I know he knows all about these things. Pray for him—he is

a good man who has risked his life for his country, and continues to do so to proclaim truth!

I say this, in this article about famine, to let you know that they are going to use the excuse that there are too few truckers, so we have to get the nation's trains running again. In all F.E.M.A. operational facilities there are trains, underground facilities, and underground "vents". My friends, we are on the verge of great tragedy in this country...and we must cling to the rejoicing Scriptures on pages 6 and 7 at the end of this article.

Yes, famine has been planned for America. If martial law is declared, one of the first things they will do is shut down the airports and all types of personal and trucking transportation. They will tell people to stay in their homes under penalty of being shot. So, many people will go hungry, and maybe very hungry before they are herded into camps, or inner cities for control. This is why it is very smart to get food for at least 6 months, and store water as much as possible.

The Mormon Church a short while ago told their people to prepare food storage for 6 months, then it went to a year, now they are telling their people to prepare for 18 months lack of food. Since they are Masonic and Illuminati at the head, they're warnings are not idle ones. And the band plays on, and most Americans just complain about the rise in food prices - 20% a month now—and do nothing to stock up. Even if you buy a 20-pound bag of rice a week, do so. It is planned famine—to kill you and your family. What you do about it is your business, but I speak to the wise. Steve Quayle said recently: "We are just one crop away from famine", and so we are.

When I was in Aqaba, Jordan, on the Red Sea in March of 2003, and Saddam Hussein was promising to dust Aqaba with chemical warfare, others were building bomb shelters and stocking up on food and water. I had no money to do anything. I asked Father what I should do. He said, "Nothing!" I said, "Nothing?" He repeated: "Nothing". I didn't even have enough money to buy tape to put around the windows....so I did nothing and nothing happened. But, recently He has said to me, here in the U.S., "store food". When He says something, we'd better listen!

It was reported to me, when I was recently in Tennessee, that a case of bird flu was discovered, and they have begun killing chickens—even chickens in private home yards. Some of our beef is being recalled also—a foretaste of what is to come. If they find a disease in a cow in the U.S., then all the animals will be slaughtered, as what happened a few years ago in England. Yet, the nerve disease that a few cows had there were related to the eating of their own dead... dead cows ground up and added to their feed. Yes, that will happen here—dead humans ground up to be added to our food, but we are already getting detrimental chemicals, pig enzymes, vaccines, jellyfish enzymes and other horrors in our food. Remember the movie "Solent Green"? Movies have been telling us truth, hidden in fiction, since the 1940s at least!

We are also being dusted with biological and chemical warfare. Many are now seeing the “chem-trails” of the airplanes that are dropping their loads on us. Testing of diseases is being done to the American people on a regular basis, to tear down our immune systems so that the final spray will do us in.

Also now “phermones” are being sprayed on us—these are capable of altering our emotional reactions and our mental state, so that demonic or human hypnosis will be easy—preparing us to receive the great displays of the “aliens”—fallen angels and etc., “lying signs and wonders and deceptions” that will accompany the arrival of anti-messiah. (II Thessalonians 2)

So just like in Egypt under Joseph, the wise stored grain. When the famine hit—they were prepared to survive. I realize that the comparison breaks down because this is a world situation now, but the wisdom is still there. This coming Yom Teruah, September 29, 2008/2009 on the Hebrew calendar, we will go into the first year of the last 7 years - the years of famine and death—before Messiah comes. And as Jeremiah tells us in many passages, beware of the false prophets who are saying “Nothing is going to happen to us”. Do not be deceived!

Matthew 24:7--Messiah said: “For nation shall rise against nation, and kingdom against kingdom, and **there shall be famine** and pestilence and earthquakes various places”.

My purpose in warning people is not to scare anyone. I am not an information peddler, nor do I seek to entertain the bored with scary news. Fear cancels faith, and the last thing I want to do is to cancel faith in anyone--our hope is in Him and His coming Kingdom. I simply present reality without going into gruesome details, and if you take it objectively, you will do something about it to help yourself and your family.

Beyond everything else, however, our spirit must be strong in faith in Him—not for Him to make life like a cherry lollipop for us, but to see us through, as He did Noah, Daniel and Job. The overcoming set-apart ones are ready to overcome, and the remnant is ready to survive. The martyrs are ready to be martyred, and receive a great reward.

There are 89 Scriptures on famine in the Bible. Here are two for rejoicing:

Psalm 33:18-19: “**Behold, the eye of Yahuweh is upon them that fear Him, upon them that hope in His mercy, to deliver their life from death, and to keep them alive in famine**”.

Psalm 37:18-19: “**Yahuweh knows the days of the upright, and their inheritance shall be forever. They shall not be ashamed in the evil time, and in the days of famine they shall be satisfied**”.

Romans 8:35-39: “Who shall separate us from the love of Messiah? Shall tribulation, or distress, or persecution, or famine, or nakedness, or peril or sword? For it is written, `For Your sake we are killed all the day long: we are accounted

as sheep for the slaughter. NO! In all these things, we are more than conquerors through Him who loved us! For I am persuaded that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come, nor height, nor depth, nor any other creature shall be able to separate us from the love of Elohim, which is in Messiah Yahushua, our Master". You can't get more powerful words of encouragement than that!

Never forget **I Kings 17-19**, the story of Eliyahu (Elijah), who prophesied 3 ½ years of famine, yet he was fed by ravens and fed by a widow in Lebanon. My friends, if you fear Him and obey Him ("fear" of Yahuweh in Scripture means to be "terrified out of your wits" of displeasing Him), then you can be preserved in famine and war and through disease, etc., like Eliyahu was when ravens fed him by the brook Cherith. It depends on your relationship with Him, and your authority level with Him earned by mutual trust, where you not only trust Him, but He trusts you, and backs your proclamations as He did Eliyahu's.

Shalom with love and joy,
Sister in Yahuweh
